Where Learning Takes Shape.

Because great spaces don't just happen—they're built with intention.

At Marco, we believe that every piece of furniture plays a role in shaping how students learn and educators lead. From classrooms that encourage focus to libraries that invite exploration, and band rooms that support creativity—our spaces are built for real learning, real life, and real impact.

With precision manufacturing, American-made craftsmanship, and a commitment to integrity, we design products that do more than fill a room—they help shape the experience inside it.

Because when the environment is right, learning takes shape in powerful ways.

Pull up a chair— Let's talk Marco.

We've got a good story—and it starts with people who care about doing things right. For over 25 years, we've been more than a furniture manufacturer—we're a team of makers, problem-solvers, and do-the-right-thing kind of people. We build American-made products that move, adapt, and hold up to the real pace of education. From classrooms to commons, libraries to band rooms, we design with purpose and build with pride—so every space we touch helps learning take shape.

Seating

A Seat for Every Student. A Solution for Every Space.

Marco seating fits every age, every classroom, and every budget. From pre-K to higher ed, our chairs are built to move, adapt, and last— designed for real students in real learning environments. Pair them with our desks and tables for spaces that look great and work even harder. Because when the chair works, our students can too.

Premier™ Stacking Chair

Meet the Premier Chair—our most comfortable seat, built with students in mind.

With its signature four-sided waterfall edge, this chair isn't just ergonomic—it's adaptable. Whether students lean, twist, perch, or shift, the Premier moves with them, offering support from every angle. A thoughtful ledge on the back doubles as a casual armrest or easy-grab handle for quick stacking and classroom reconfiguring. The contoured back hugs the body just right, while the smooth finish makes cleanup a breeze.

Features

- Available in 16" and 18" heights
- Brackets are welded to underside of frame for added strength
- Legs are constructed of 1" tubular steel
- Nickel-plated, self-leveling nylon glides that reduce scratching and marring
- 4-sided waterfall edge
- Chairs stack 8-10 high

Premier™ Series Stacking Chair
Model 43101

Nova™ Stacking Chair

Simple. Supportive. Built to last.

The Nova Chair delivers everyday comfort with ergonomic smarts—shaped to support proper posture and reduce fatigue, even through long learning blocks. Its contoured seat and back follow the natural curve of the body, keeping students focused and at ease.

Designed for real classrooms and real budgets, Nova is proof that you don't have to sacrifice quality to stay within reach. Tough enough for daily use. Smart enough for any space. Affordable enough for every school.

Features

- Available in 18" seat height
- One-piece molded polypropylene shell
- Frame constructed of 1" diameter 16-gauge tubular steel
- Legs are fully welded to two channel brackets for superior strength and durability
- Nickel-plated, self-leveling nylon glides that reduce scuffing and marring
- Stacks 8 high
- Sold only in quantities of 46

Nova™ Stacking Chair
Model N101U-18CR

Nova chair must be ordered in pallet quantities of 46 units. Pallets can not be broken up for smaller quantity orders. Please contact your RSE if you have any questions or concerns in placing an order for these chairs.

Apex™ Series

Comfort that keeps up.

The Apex Chair is designed for real classrooms and real students—those who lean back, shift forward, and need a seat that supports it all. With gentle flex and built-in lumbar support, Apex delivers comfort that moves with the learner, not against them.

Its modern shape isn't just for looks—it's made to fit students of all sizes and stand up to everyday wear.

Features

- Available in 12", 14", 16" and 18" heights
- Polypropylene seat shell with flexible back
- Brackets are welded to underside of frame for added strength
- Legs are constructed of 1½" tubular steel and come in gray powder coat finish or chrome
- Nickel-plated, self-leveling nylon glides
- Chairs stack six high

Marco holds a US patent for the innovative shape of all chairs in the Apex™ product line: US Design Patent Number D764850

Apex™ Series Caster Chair

Model 38102

Apex series chair with 2" swivel casters for easier mobility. Available in 16" or 18" seat heights and come in 9 standard seat colors with chrome legs. Gray leg option available for 18" models.

Apex™ Series Gas Lift Task Chair

Model 38103

Apex series chair with a pneumatic lift for height adjustability and a 5-star base with 2" hooded swivel casters. Available in the 9 standard seat colors.

Apex™ Series Gas Lift Task Stool

Model 38203

Apex series chair with a pneumatic lift for height adjustability and a 5-star base with 2" hooded swivel casters and a chrome foot ring for improved leg comfort. Available in the 9 standard seat colors.

Apex™ Series Cantilever Chair

Model 38301

Apex series chair with a modern cantilever leg design gives a modern and sleek look to the classic student chair. Chair can rest safely on the work surface when not in use. Available in 16" or 18" seat heights and come in 9 standard seat colors with chrome or gray legs.

Apex™ Series Adjustable Stool

Model 38201

Apex series chair on a tall 1 1/8" tubular steel frame with a chrome finish. Stool has a sturdy foot rest for leg comfort and nylon swivel glides. Legs are adjustable in height from (24-30 inches). Available in the 9 standard seat colors with chrome or gray legs.

MG1100 Series

**Marco's longest-running seating solution—
for good reason.**

The MG1100 Chair has earned its place in classrooms for decades, delivering durability, comfort, and reliability day in and day out. Its signature V-back design offers natural spinal relief, while the waterfall seat edge supports the thighs for all-day learning. With clean lines, concealed rivets, and a tough steel bracket system, MG1100 is proof that simple, smart design never goes out of style.

MG1100 Series V-Back Stacking Chair

Model MG1101

Features

- Stacking chair available in 12", 14", 16" and 18" heights

MG1100 series chair with a pneumatic lift for height adjustability and a 5-star base with 2" hooded swivel casters.

Cushioned Swivel Stool

Comfort that turns with you.

Marco's Cushioned Swivel Stool is all about flexibility—literally. With adjustable seat heights from 22" to 30", it's built to move between spaces and support a range of users with ease. The 20" wide base adds extra stability, while 4½" of foam padding makes for a surprisingly plush perch. Available in your choice of standard or special-order textiles and finished with a sleek swivel base in brushed nickel or chrome, this stool is as comfortable as it is customizable.

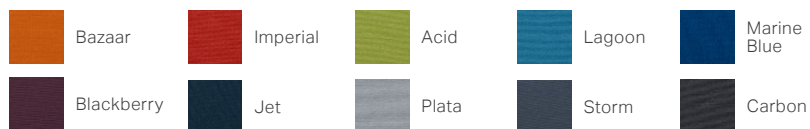

From classrooms to labs to makerspaces, it's seating that does more than sit still.

Features

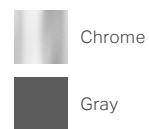

- 18" diameter and 4½" thick foam seat upholstered with durable textile cover
- Seat adjusts from 22" to 30" height
- Seat swivels 360 degrees
- Adjustable height foot ring in chrome or gray powder coat finish
- 20" steel base in chrome or gray powder coat finish
- 245 lb. weight capacity

Ottomans & Benches

Soft seating that shapes space your way.

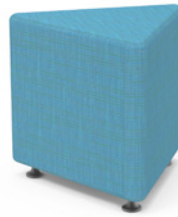

Sonik Ottomans and Benches offer flexible, functional seating for busy learning environments. With a variety of shapes—rectangles, squares, triangles, and curves—it's easy to create layouts that fit your space and support collaboration. Durable wood construction, foam padding, and wipeable textiles stand up to everyday use. Choose from 16" or 18" seat heights, with standard glides or optional casters to keep things moving.

Features

- Wood base
- Polyester foam padding
- High durability textile cover
- 1½" bell-shaped glides
- Optional casters available

Soft Seating with Rocker Base

Let them move—and stay focused.

Designed for active learners, the Sonik Floor Rocker and Round Ottoman with Rocker Base offer gentle front-to-back and side-to-side motion to help students stay engaged. The Floor Rocker's low-profile, lightweight design makes it perfect for early learning, reading corners, or calm-down spaces. A smart alternative to traditional seating, these rocking seat options give students the freedom to move while staying grounded.

Conversation Station

Sit Together – Stay Connected

The Conversation Station creates a smarter way to sit—two chairs joined by a shared table for comfort, posture, and a place to keep belongings close at hand. Whether it's a commons area, library, or lecture hall, this setup gives people the freedom to sit side by side while choosing their own pace—listening, studying, or just pausing between classes. With American-made durability and a design that feels relaxed yet purposeful, the Conversation Station makes every space more versatile.

Desks & Tables

Smart Surfaces. Solid Foundations.

Marco desks and tables are built to adapt—whether students are collaborating, focusing, or somewhere in between.

From flexible group tables to individual desks, our collection is designed to mix, match, and move with ease. Adjustable legs, dry-erase surfaces, bold edge banding, and thoughtful additions like backpack hooks and book boxes make every detail count. Shape the space. Set the pace. Let learning lead.

Premier™ Series

Modern style. Marco strength.

The Premier™ Series Desk brings a sleek, rounded-leg design to the classroom—offering a more contemporary look with the same rugged performance educators rely on. With steel-on-steel mountings, thermally fused melamine tops, and optional color edge banding, it's a durable, design-forward solution that's built to last and made to move.

Features

- Top constructed of 11/8" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Pre-drilled holes for easy leg assembly
- Upper leg constructed of 16-gauge, 2" round steel mounted on a 12-gauge steel plate, fully coated with a powder coat finish
- Lower adjustable leg constructed of 16-gauge steel with a chrome-plated finish, tapped at 1" intervals for adjustment from (21"–31") or (32"–42") leg heights
- Adjustable nylon glides allow for easy floor leveling

Cue™ Collection

Move freely. Teach your way.

The Cue Collection puts control in your hands with a height-adjustable desk and mobile podium that flex to fit your teaching style. The podium rolls easily for small group work, one-on-one collaboration, or front-of-class instruction—and reconnects magnetically to form a steady, all-in-one workspace.

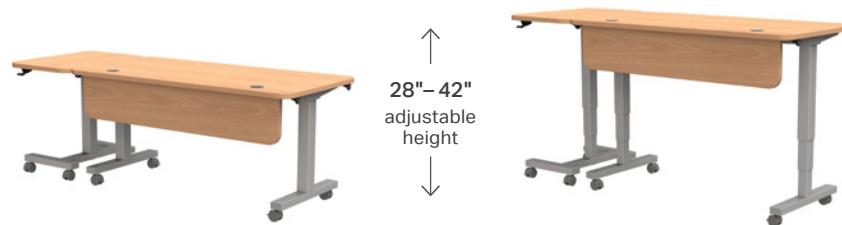

Pneumatic adjustment. Smooth mobility. Built to move with you, not against you.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Steel leg frame with black or gray powder coat finish
- Lever-activated pneumatic air cylinder raises or lowers desk and podium from 28" to 42" tabletop heights
- Integrated magnets provide secure connection of podium to either side of the desk
- 2½" locking swivel casters for easy mobility

Finishes

See "**Materials & Finishes**" section for full line of laminate options.

Pneumatic lift raises and lowers desk and podium from 28" to 42" heights. No power necessary and no messy cords.

Instructor Stations

A classic, built to lead.

Our Instructor Stations are more than furniture—they are the command center for inspired teaching. Built with a durable laminate surface, smooth-gliding trays, and heavy-duty locking casters, it brings trusted performance and lasting organization to the heart of every classroom.

Clean. Strong. Reliable. Just like the educators who use it.

Features

- ¾" thick particleboard substrate with thermally fused laminate surface on both sides
- 3mm PVC edge banding
- 3" black heavy duty locking casters
- Engineering grade ABS plastic trays and guides
- Includes (3) 3" trays and (1) 9" file tray

Doors Include:

- 270° swing 5 knuckle institutional hinges
- Color-matched hardened plastic door handles
- Keyed door lock

Finishes

See "Materials & Finishes" section for full line of laminate options.

Accessories (sold separately)

Premier™ Series

Strength you can count on.

The Premier Table Series combines clean design with classroom-tough construction. Adjustable round legs offer a modern look with reliable steel-on-steel mounting, while built-in stretchers and leveling glides keep things steady.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Upper leg constructed of 16-gauge, 2" round steel mounted on a 12-gauge steel plate with a powder coat finish
- Lower adjustable leg constructed of 16-gauge steel with a chrome-plated finish, tapped at 1" intervals for adjustment from (21"–31") or (32"–42") leg heights
- 16-gauge 1" square tubular steel stretcher attached to all tables 54" in length or longer
- Adjustable nylon glides allow for easy floor leveling

Apex™ Series

Everyday durability. Classroom-ready flexibility.

The Apex Table is built to support active learning with clean, round adjustable legs and a tough, thermally fused laminate top. Height adjusts from 21" to 30" in 1" increments to accommodate students of all ages, and pre-drilled holes make assembly quick and easy.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- 16-gauge 1" square tubular steel stretcher attached to all tables 54" in length or longer
- Four 16-gauge steel legs mounted on a 12-gauge steel plate, fully coated with a durable powder coat finish
- Lower adjustable legs constructed of 16-gauge steel with a durable powder coat finish, tapped at 1" intervals for adjustment from (17"-24") or (21"-30") leg heights
- Nickel-plated nylon swivel glides standard

MG2200 Series

Tough tables for everyday use.

The MG2200 Series is a dependable, all-purpose table made to handle the hustle of classrooms, meeting rooms, and office spaces. With a 1½" thick thermally fused laminate top and durable 3mm PVC edge banding, it delivers a seamless, easy-to-clean surface—no cracking, no peeling, no T-molding.

Features

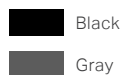

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Upper leg constructed of 18-gauge, 1½" round steel welded to 16-gauge steel plate with ¼" diameter steel wire v-bracing
- Upper legs are fully coated with a powder coat finish
- Lower adjustable leg constructed of 18-gauge steel with a chrome-plated finish, tapped at 1" intervals for adjustment from (16"– 24" heights) or (21"– 30" heights)
- 16-gauge 1" square tubular steel stretcher attached to all tables 54" in length or longer
- Adjustable nylon glides allow for easy floor leveling

Multimedia Tables

Built for Screens. Made for Teams.

The Multimedia Table is designed to support today's learning environments—shaped for easy screen viewing on one end, with plenty of room for collaboration all around. While the technology is yours to add, the table is purpose-built to make group work, presentations, and shared learning feel seamless. Durable, flexible, and American-made, it's a smart solution for classrooms, libraries, and labs.

Features

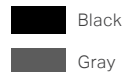

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Upper leg constructed of 16-gauge round steel mounted on a 12-gauge steel plate, fully coated with a powder coat finish
- Lower adjustable leg constructed of 16-gauge steel with a chrome-plated finish, tapped at 1" intervals for adjustment from (21"– 31" heights) or (32"– 42" heights)
- 16-gauge 1" square tubular steel stretcher with all tables 54" in length or longer
- Adjustable nylon glides allow for easy floor leveling

Accessories

Optional Power Module with 3-AC Outlets and 2-USB Ports

Module has a 10 foot power cord and Overload protection with reset switch.

Floor Tables

Low seating. High engagement.

Floor Tables offer a grounded, flexible option that supports the way students naturally learn—comfortable, focused, and free to move. Ideal for reading, group work, or quiet tasks, they create a more relaxed posture that encourages calm concentration.

Pair with Sonik® Floor Rockers or cushions to give students choice—and a setup that feels just right.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- 16-gauge 1" square tubular steel stretcher with all tables 54" in length or longer
- Four 16-gauge steel legs mounted on a 12-gauge steel plate, fully coated with a durable powder coat finish
- Lower adjustable legs constructed of 16-gauge steel with a durable powder coat finish, tapped at 1" intervals for adjustment from 12" – 15" heights
- Nickel-plated nylon swivel glides standard

Flip & Nest Training Tables

Set up fast. Store even faster.

The Flip and Nest Table is made for spaces that change by the hour. With a simple top-flip mechanism and smooth-rolling, locking casters, it transitions effortlessly from use to storage. Sturdy steel legs (available in gray or black powder coat) keep things stable, while the mobile base keeps your space flexible.

Smart. Mobile. Ready when you are.

Features

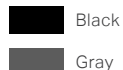

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- 3mm PVC edge banding
- Single handle release allows for easy table positioning
- Compact nesting minimizes storage space
- 2-¼" round steel legs with powder coat finish
- Cast aluminum leg base with powder coat finish
- 2" black locking casters

Discovery™ Workstation

Built for curiosity. Ready for action.

Discovery Workstations are made for STEM and STEAM learning—offering smart storage, a durable surface, and the mobility today's classrooms need. With locking doors, smooth-gliding trays, and optional open shelving, there's room for tools, materials, and big ideas. Tough enough for daily use. Flexible enough for whatever's next.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Base constructed of ¾" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- Four keyed door locks
- 42" model includes (4) open compartment shelves
- Engineering grade ABS plastic trays and guides
- Twelve 3" trays and four 9" trays

GRAVIT8™ Table

The table where curiosity gets to work.

Designed for the makers, thinkers, and doers, the GRAVIT8 Table brings inventive minds together—whether it's science experiments, art projects, or hands-on collaboration. With a sturdy 4-leg design and industrial-grade casters, GRAVIT8 is built tough yet moves easily, keeping pace with the flow of every learning environment.

A convenient secondary surface provides space for laptops, notes, or sketching ideas, while the main worktop supports projects of every size. Integrated shelving and organization options keep supplies close at hand and workspaces clutter-free, fully compatible with Marco's storage solutions.

Features

- Top constructed of 1½" particleboard with thermally fused melamine surface on both sides
- Thermally fused 3mm PVC edge banding
- 12-gauge steel legs with powder-coat finish
- 16-gauge steel support bars with powder-coat finish
- 5" heavy duty swivel casters

Storage & Organization

Clean Spaces. Clear Minds.

Good storage isn't just functional—it's foundational. At Marco, we design storage that keeps classrooms organized and visually calm, with durable construction and a fresh, modern look. From mobile carts and cubbies to bookcases and band storage, our solutions are built to move easily and last for years. Add a subtle pop of color or keep it classic—either way, it's storage that makes space feel intentional. Less mess. More focus. Better flow.

Mobile Casegoods

Looks built-in. Acts built-for-anything.

Marco Mobile Casegoods give you the best of both worlds: the clean, finished look of built-ins with the flexibility to rearrange, relocate, or reconfigure anytime. Hidden casters, internal levelers, and secure cap-nut connections keep everything stable and seamless.

With a wide range of cabinet styles and smart storage options, these units are ready to move with you—and work just as hard.

Features

- Concealed casters for cabinet mobility (not available on 84" height cabinets)
- Cabinets are built with steel tubing for long lasting durability
- Compartment shelves are 1" thick to reduce the risk of sagging
- European hinges give the cabinets a clean, sleek appearance
- Steel drawer sides with 5/8" bottom
- Modern door pull options of brushed nickel or black powder coat
- Internal levelers for easy installation
- Optional door and drawer locks

Finishes

Bandstor™

Our storage is in tune with the way you teach.

At the heart of Bandstor is our industry-leading instrument storage—built tough to protect what matters most. From mobile and stationary racks to versatile cabinets and smart configurations, we've thought through every detail so your instruments stay safe, accessible, and performance-ready. And we don't stop there. Add folio cabinets, conductor podiums, and uniform storage to keep your entire program organized, mobile, and ready to roll. It's everything you need to keep the music going—designed with educators in mind and built the Marco way.

Bandstor™ by Marco

Raising the bar in band room storage.

Bandstor by Marco was built with one goal in mind: to deliver smarter, stronger storage for music programs that don't cut corners. At the heart of our collection is a utility-patented, three-piece shelf system featuring a reinforced steel bar design—giving you rock-solid support and the flexibility to replace just the liner, not the whole shelf.

Every detail works as hard as your program does—from metal base plates that guard against wear, to metal-to-metal connectors for a secure, lasting hold. Choose wire or solid laminate doors to match your room and routine.

Made in the USA. Backed by a 10-year warranty. This is storage that plays at your level.

Features

- Thermally fused melamine construction
- 3mm PVC edge banding
- Cabinets are built with steel tubing under all shelves
- Steel tubing is thru-bolted to side panels providing strong structural support and cabinet rigidity
- Patented shelf design with textured HMPE plastic liners with grooves to circulate air flow
- Wire doors constructed of 9mm steel perimeter and horizontal wires and 5mm steel vertical wires with black powder coat finish
- Heavy-duty commercial 5-knuckle door hinges
- Heavy-duty steel latch and hasp hardware that accepts all padlocks
- Internal adjustable floor levelers made from 12-gauge steel brackets designed to protect base corners from chipping

New Cabinet Feature

Magnetic door catch ensures a secure close while reducing rattle and movement in both wood and metal bars.

(Patent Pending)

Optional Acoustic Panels

Environment-friendly material is placed at the back and the top of each compartment to help eliminate sound reflection.

Finishes

See "Materials & Finishes" section for full line of laminate options.

Doors

Storage cabinets available with wire doors, wood doors or no doors.

Uniform & Robe Storage

Cabinets are shown without doors. When ordering, please specify door type. Doors can not be installed later.

Mobile Instrument Racks

Storage that moves with the music.

Bandstor's Mobile Instrument Racks are designed to keep your ensemble in motion—safely, securely, and in tune with the way you teach. Whether you're storing violins, guitars, cellos, basses, or tubas, each rack features protective touches tailored to the instrument—from carpeted supports to bow hooks and neck yokes.

Built on smooth-rolling locking casters with reinforced laminate construction, these racks are easy to move, easy to load, and ready for rehearsal, performance, or anywhere in between.

Features

- Side panels are ¾" thick, 45# particleboard with thermally fused laminate finish applied to both sides
- Thermally fused 3mm PVC edge banding applied to visible edges
- Racks have 3" (76 mm) swivel locking casters in black matte finish
- Upper cross supports are composite wood laminated panels with PVC bonded edging to protect instruments
- Lower cross supports are composite wood laminated panels with carpeted edging attached to aluminum angle to protect instruments
- Some assembly required

Mobile Workstations

Percussion-ready. Performance-tested.

Designed with the needs of percussionists in mind, our mobile workstations—including cymbal carts and percussion setups—make it easy to store, transport, and access instruments on the go. With durable laminate construction, secure compartments, and smooth-rolling locking casters, every detail is built for the fast pace of rehearsals and performances.

From practice room to performance hall, these carts keep your section organized and stage-ready—every time.

Features

- Carpeted worktop for keeping instruments quiet
- Lower compartment for snare drums and tambourines
- Upper shelves with plastic trays
- Adjustable folding sheet music holder
- Four heavy-duty casters for easy mobility
- Lockable doors

MODEL	DIMENSIONS
BS300	48"W × 36½"H × 26"D

Includes (8) plastic trays.

Encore™ Cart

Simple to load. Ready to roll.

Whether it's uniforms, flags, or gear, the Marco Uniform Rolling Cart makes it easy to stay organized and ready to roll.

Designed with input from real educators and program leaders, this cart adjusts to your needs—literally. With an adjustable height range from 56" to 86" and durable steel construction, it's built to last and built to work. Smooth-rolling casters and a slim footprint means it fits through standard doorways and loads easily into trailers. It's mobility, simplicity, and reliability—rolled into one ready to learn.

Features

- Shelves constructed of steel tube cross bars
- Metal uprights and end caps constructed of 13-gauge steel
- Equipped with two full-length hanger bars
- Top shelf adjustable from 56" to 86" height in 6" increments
- Lower hanger bar assembly is removeable to fit robes or taller uniforms
- Durable black powder-coat finish
- 5" heavy duty swivel casters provide easy maneuverability

Shown here with middle bar removed and top lowered.

Shown here at full height with upper and lower hanging bars. Middle bar can be removed to fit longer length garments.

Some assembly required.

Folio Cabinets

Sort it. Store it. Keep it all in rhythm.

Bandstor Folio Cabinets are built to handle the daily shuffle of sheet music, folders, and scores. With spacious compartments, durable laminate construction, and a clean, organized layout, these cabinets keep everything in place and easy to grab—whether you're heading to rehearsal or winding down a performance.

Features

- Sides, tops, bottoms, and partitions are ¾" thick, 45# particleboard with thermally fused laminate finish applied to both sides
- Thermally fused 3mm PVC edge banding applied to visible edges
- Shelves are constructed of thermally fused composite wood
- Shelf spacing is 1½" and shelves adj. to 3" in ½" increments for choral and band orchestra
- Durable, smooth-rolling swivel casters let you take your sheet music anywhere
- All folio cabinets come with labeling strips

Optional Doors

- Laminate: ¾" thick 45# particleboard with thermally fused melamine finish applied to both sides. All edges covered with thermally fused 3mm PVC edge banding
- Optional locks available for doors

Music Library System

Because a well-organized library keeps the whole program in tune.

The Bandstor Music Library System makes it easy to sort, store, and access sheet music for every section, ensemble, or concert cycle. With durable folio cabinets, flexible configurations, and a clean, professional look, it brings harmony to even the busiest music rooms.

Smart storage for the materials that move your program forward.

Features

- High-density slide-out design maximizes storage space
- Organizes music in an easy-to-find system
- Roll-out design creates a clean, organized appearance
- Accommodates most music filing boxes, end-tab file folders, and envelopes
- Available in left or right side access

Conductor's Podiums

Lead with confidence. Stand on strength.

The Bandstor Conductor Podium is built for the spotlight—featuring a sturdy, reinforced base and carpeted surface for quiet, secure footing. Molded feet protect your floors, while recessed wheels make it easy to roll out, set up, and store away.

Durable, dependable, and ready for every rehearsal and performance.

Features

- Top constructed of 1" thick 45# particleboard with thermofused laminate finish and covered with gray carpet.
- Base constructed of 3/4" thick 45# particleboard with thermofused laminate finish applied to both sides.
- Base panels assembled with 16 Ga. steel plates
- Top edges are wrapped with 16 Ga. steel edging
- Plastic gusset / feet attached at each base structure corner for strength and floor protection
- 5" recessed wheels mounted on front of podium for mobility.
- (Models BS351 & BS352) 1-1/4" 16 Ga. steel 36" tall guard rail
- All steel components finished with durable powder coat paint

ShapeScapes™

Think it. Shape it. Learn it.

ShapeScapes brings learning to life through sound-absorbing PET panels designed as letters, numbers, and playful forms. More than acoustics, they become interactive teaching tools and colorful design elements that spark imagination in any space. Choose from standard sets or dream up something new with our design team—the sky's the limit. Multi-color or single-color options let you shape sound, style, and discovery your way.

Features

- Made from eco-friendly 100% recycled PET material
- Sound absorption qualities reduces noise and echos
- Lightweight for easy handling and installation
- Durable and moisture resistant
- 12mm PET thickness

Package Set Color Combinations

"Primary" Color Set (color code **CS1**) includes Yellow, Orange, Red, Telecom Blue and Violet

"Naturals" Color Set (color code **CS2**) includes Platinum, Medium Gray, Orange, Red Earth and Pure Camel

See "**Materials & Finishes**" section for full line of PET color options.

Model PFK000318

Sold as a set with 16 shapes (shown here). Each shape comes with cut-out for additional display option. Available in (2) color combinations or all in one color. Shapes are 18-inches by 18-inches.

ShapeScapes™ Alphabet

Model PFK000218

Sold as a set (shown here). Available in (2) color combinations or all in one color. Letters are 18-inches tall.

ShapeScapes™ Numbers

Model PFK000118

Sold as a set (shown here). Available in (2) color combinations or all in one color. Numbers are 18-inches tall.

Custom Designs

We can create custom designs like school mascots, logos, unique patterns and more that will bring your space to life and leave a lasting impression.

Room Divider

Smart Additions. Real Impact.

Marco accessories are built to bring order, focus, and flexibility to every space. Our durable storage bins and trays keep materials organized and within reach. PET room dividers and wall panels help reduce noise, create visual boundaries, and add learning moments with custom shapes, letters, or school names. Whether you're managing movement or minimizing distractions, these details make a big difference. Functional. Flexible.

Built to work behind the scenes—so classrooms can shine.

Features

- Dimensions: 46.25"W x 19.78"D x 78.67"H
- Lightweight acoustic panels are made of 100% PET material
- Steel frame and legs have a gray powder coat finish
- Locking swivel casters for easy mobility

Marco laminates are certified by Greenguard.

GREENGUARD Gold Certification (formerly known as GREENGUARD Children & Schools Certification) offers stricter certification criteria, considers safety factors to account for sensitive individuals (such as children and the elderly), and ensures that a product is acceptable for use in environments such as schools and healthcare facilities. It is referenced by both The Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System.

Textiles

Standard Textiles

Our standard textiles are kept in stock to shorten order times and are based on colors that complement our other product lines such as our Apex and Premier Series furniture. The Silververtex textiles feature superior abrasion resistance, along with antifungal and antibacterial protection, which makes it a perfect material for classroom furniture use. Models ordered with only Standard Colors ship within 4-6 weeks.

CARE & MAINTENANCE

Products are to be used for their intended purpose and inspected on a regular basis to avoid structural failures and possible injury. Inspections are to include confirming there are no loose or missing screws, glides, rivets, casters, etc. Products are to be inspected for cracks, fatigue, or broken welds. Any product showing signs of damage or improper adjustment must be removed from service immediately and notice must be provided to MGI and the furnishing Dealer. Repairs are to be made with factory authorized parts.

VINYL SURFACES

GENERAL CARE

Remove most stains with one of the following steps:

Eye shadow, mascara, grease, black felt tip pen, crayon, chocolate, suntan lotion and hair/body oils

Remove excess spill with a damp cloth. Clean with a 1:1 mix of Ivory soap and water. Rinse with clean water and dry.

Red lipstick

Use a straight application of concentrated cleaners such as Formula 409® or Fantastik® spray cleaner. Wipe with a clean cloth, rinse with water and dry.

Blood, urine, feces, oil-based paint, tar and asphalt

Use a 1:1 mix of ammonia and water, or a 1:10 mix of bleach and water. Rinse with clean water and dry.

All other tough stains

Use a 1:1 mix of isopropyl alcohol and water. If the stain persists, use straight alcohol. Rinse thoroughly with clean water and pat dry. Use a soft cotton cloth saturated with the cleaning material and rub the stain in circles 10 times. Pat dry with another soft cloth and check the results.

LAMINATE SURFACES

- Do not drop heavy objects on laminate and melamine surfaces. It is possible to chip or gouge the surface if a heavy object is dropped on the table top abruptly.
- Do not place hot objects on laminate and melamine surfaces. It is possible to blister or warp the surface top.

Laminates should be cleaned with warm water and soap mixture and dried with a soft cloth. Spills should be wiped up quickly, though. If there is a hard to remove stain, a combination of mild cleaner and baking soda can be used to remove stains from the surface. Scrub with a stiff nylon brush, then clean as you normally would.

DO NOT USE

Harsh chemicals, abrasive bleach based cleaners, sharp writing utensils, or other sharp objects on your laminate or markerboard to avoid scratches.

MARKERBOARD CLEANING

To refresh your writing surface to its original luster, simply wipe entire surface with a soft cloth moistened with warm water or markerboard cleaner, and immediately wipe dry with a clean soft cloth.

- Use only Dry Erase Markers on your markerboard table. Do not use permanent markers as they can permanently stain the surface.
- Do not allow dry erase marker ink to remain on the table for several days without erasing. We recommend that you clean your markerboard weekly to prevent marker color build up.
- Use a dry erase marker to color over areas that are hard to clean or develop ghosting. Then erase the problem area. The solvent in the dry erase ink will frequently clean the soiled area.
- If permanent marker is used on the markerboard table in error, simply marking over the permanent ink with dry erase ink will often allow the permanent ink to be removed.
- Use only erasers that are designed for markerboards. Mr. Clean® Magic Erasers work very well to clean and remove ghosting. Regular erasers do not work well. A clean, soft cloth such as a white t-shirt can be used as an alternative.
- Use only cleaning solutions that are specifically made to clean markerboard. Apply the cleaner to the eraser or soft clean cloth, not directly to the markerboard. Here is a list of some popular cleaning products:
 - Expo® Dry Erase Board Cleaner
 - Quartet® BoardGear Markerboard Cleaner
 - Best Rite® Green Erase Cleaner
 - Staples® Sustainable Earth Multi Whiteboard Cleaner
 - Mar-Kleen® Dry Erase Markerboard Cleaner
 - LCS Whiteboard Cleaner

The cleaning recommendations above are a guide to help in the maintenance of vinyl textiles. They are supplied without warranty, representation or inducement of any kind, including, but not limited to, the implied warranties of merchantability and fitness for particular use or purpose. Marco Group can neither guarantee, nor take responsibility for specific results. Under no circumstances shall Marco Group be liable for any incidental, consequential, or other damage resulting from negligence, misuse, mishandling or exposure of any chemicals used in connection with maintenance. Information relating to chemicals/cleaning solvents, environmental use, and human exposure should be reviewed with appropriate suppliers. Users must read the product specifications and determine appropriateness for specific applications. All label instruction precautions should be followed. All cleaning agents must be rinsed thoroughly with water and wiped with a soft cloth. Residue left by cleaning agents will shorten the life of the product if not removed.
