

Where Learning Takes Shape.

Spaces designed to move, explore, and engage.

 **MARCO** Environments for Learning

A holistic approach to active early learning.

This early learning environment brings together biophilic design, varied postures, and flexible furnishings to support how young students naturally learn. Floor-level work, seated collaboration, and soft, retreat-style spaces are all supported through coordinated Marco products that work together. By creating opportunities for movement, comfort, and connection, the space stays active—while learning takes shape throughout the day.

Marco. Where Learning Takes Shape.
