

SEE IT BEFORE IT'S BUILT

STAGE 2: PROPOSAL

Once your needs are defined, we bring the plan into focus. Your proposal includes a complete storage layout, detailed product inventory, transparent pricing, and accurate 2D and 3D drawings. Optional immersive 3D renderings provide a realistic preview—so you can fully experience how your space will look and perform before installation.

Architect CAD Drawings

will give you clarity, confidence, and control before anything is built. Key benefits include the following.

- **Confirms everything fits** in your room, from cabinets to walkways
- **Reveals potential issues** before orders are placed
- **Turns ideas into a clear plan** with precise dimensions
- **Supports administrative approval** with easy-to-review layouts
- **Allows adjustments early**, when changes are simple and cost-effective
- **Keeps everyone aligned** with a shared visual reference
- **Guides accurate installation** for a smooth, successful setup

3D Environment Renderings

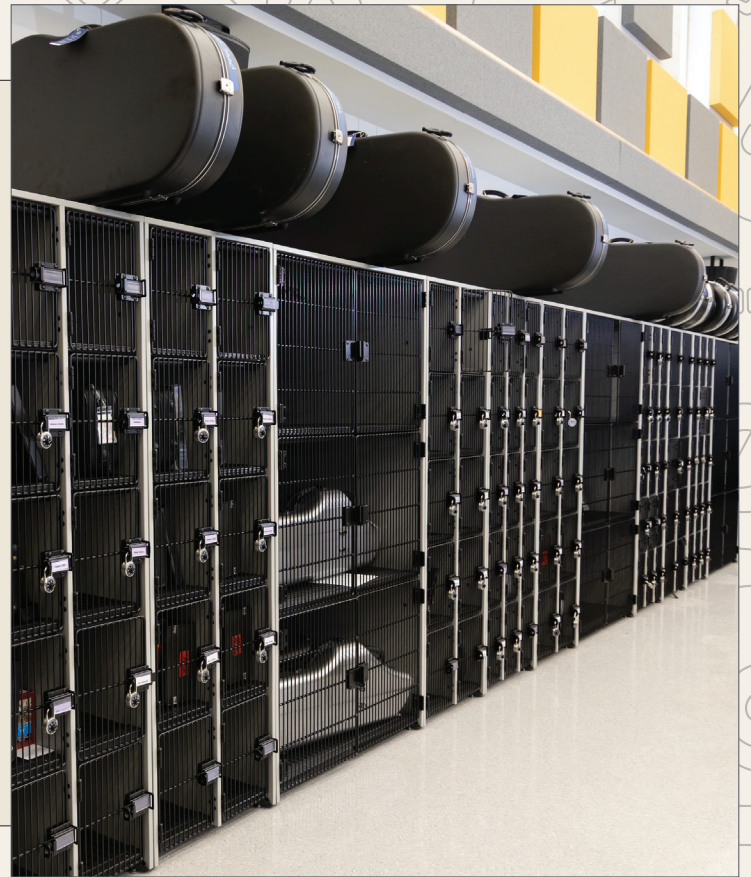

like the ones shown here, will bring your proposed music storage layout to life before anything is built. They allow you to see how cabinets, racks, and walkways will look and feel in your actual room, not just as a drawing, helping you understand scale, flow, and functionality with confidence.

SIMPLE BY DESIGN

STAGE 3: INSTALLATION

Every installation is clear, efficient, and designed to support confidence. You'll know exactly how each piece is intended to be placed before your order is finalized. Most Bandstor cabinets arrive fully assembled—reducing installation time, labor costs, and on-site complexity. The result is a smoother install with fewer variables and fewer problems.

HERE FOR THE LONG RUN

STAGE 4: SUPPORT

Support doesn't stop once your space is complete. Marco stands behind every Bandstor solution with responsive, reliable service for the long haul. Whether it's a replacement part or a future need, we're easy to reach and quick to respond—so your storage continues to perform as intended, year after year.
