

Assembly Instructions

#85286

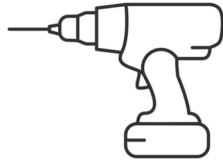

LF Tabletop Mounting

Rev. 01-06-26

Tools required

#2 Phillips Screwdriver

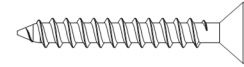

3/32" Drill bit

Hardware (Included)

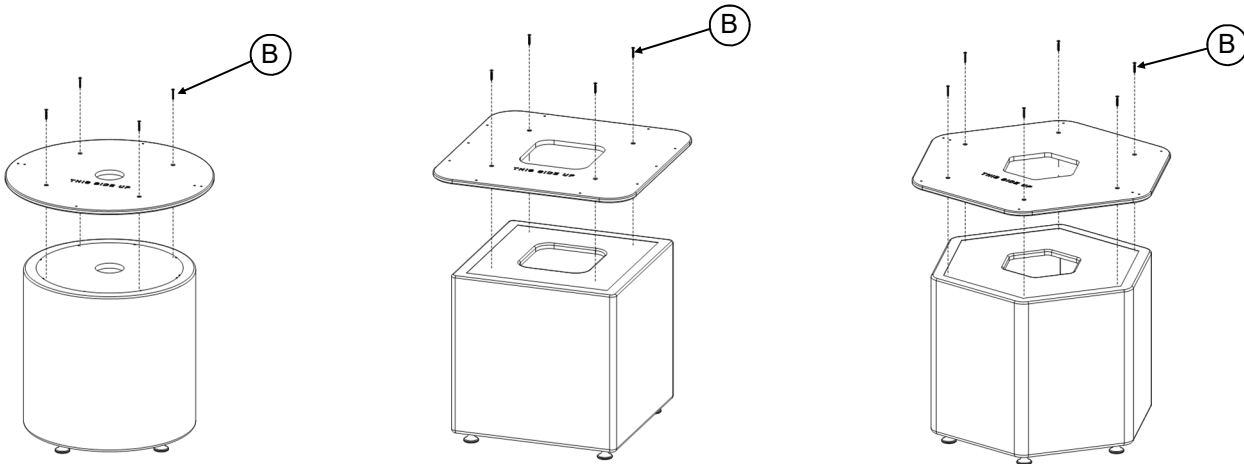

1/4" x 1" Wood Dowel

#10 x 1-1/2" Screw

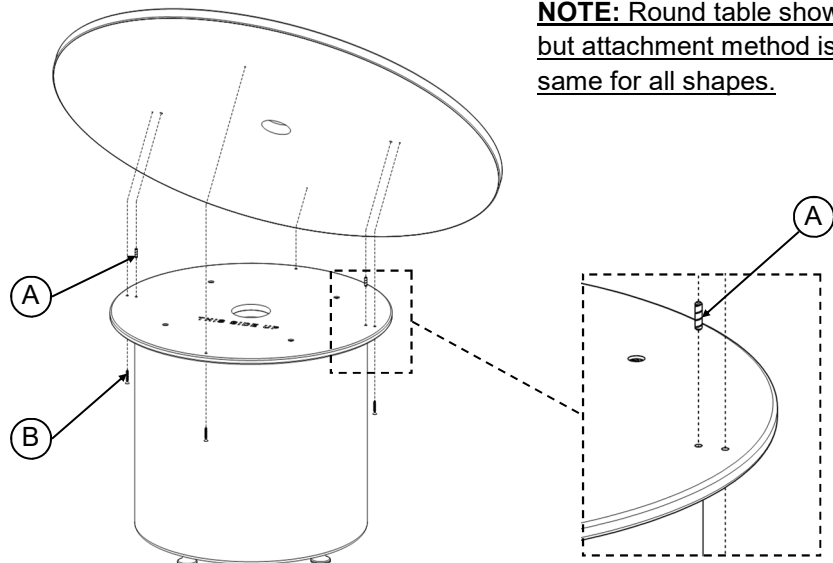

STEP 1 Place sub-top on base with hole counterbores facing up and center/align center cutouts so the attachment holes are directly over the base wood structure. Drill 3/32" pilot holes into the base through counterbored holes and screw sub-top to base with screw (B) as shown.

STEP 2

Insert (2) wood dowels into the 1/4" diameter holes as shown which are **NOT** drilled all the way through. Place table top onto sub-top and align the wood dowels with the 1/4" holes drilled in the table top. Attach top to sub-top with screw "B" through pre-drilled holes as shown - (4) on the round top, (8) on the square top, & (6) on hex top.

NOTE: Round table shown but attachment method is the same for all shapes.
